

INDEX OF SUBJECTS

A

- Abscess.** — Granulomatous . . . of the liver of pyogenic origin (*Beaver*) 259
- Abscess.** — Granulomatous . . . of the liver of pyogenic origin (*Beaver*) 578*
- Adenoma.** — Intestinal . . . in swine (*Biester and Schwarte*) ----- 175
- Adenomas.** — Report of a series of adrenal . . . (*Branch*) ----- 568*
- Amyloid.** — A case of myeloma with unusual . . . deposition (*Paige*) --- 691
- Anatomy.** — Topographic . . . and histology of the valves in the human heart (*Gross and Kugel*) ----- 445
- Anemia.** — The pathology of bartonella muris . . . and the compensatory phenomena following splenectomy in the albino rat (*Marmorston-Gottesman and Perla*) ----- 579*
- Aneurysms.** — Dissecting . . . (*Tyson*) ----- 581
- Antigen.** — The quantitative determination of the fixation of complement by immune serum and . . . (*Maltaner*) ----- 538*
- Antipneumococcus preparations.** — A study of . . . before and after drying (*Falk, Valentine, McGuire and Whitney*) ----- 545*
- Appendicis vermiformis.** — Melanosis mucosae . . . (*Lillie*) ----- 701
- Arthritis.** — Assimilation of atlas and compression of medulla: with contribution to the clinical significance and pathology of torticollis and localized chronic . . . deformans of the spine (*Besi*) ----- 579*
- Avian.** — . . . tuberculosis in normal and vaccinated rabbits (*Medlar*) -- 475
- Avian.** — The pathological changes following experimental exposure of dogs to mycobacterium tuberculosis of . . . origin (*Feldman*) ----- 147

B

- B. aertrycke.** — Spontaneous and experimental infection of pigeons with . . . (*Cash and Doan*) ----- 373
- Bacillus pyocyaneus.** — Three fatal cases of . . . infection (*Kline and Maschke*) ----- 579*
- Bacterial filtrates.** — Phenomenon of local skin-reactivity to . . . : passive immunity to reacting factors (*Shwartzman*) ----- 542*
- Bacterial pleomorphism.** — . . . : The derivation of non-virulent staphylococcus albus from virulent staphylococcus aureus (*Pinner and Voldrich*) ----- 547*
- Bartonella muris.** — The pathology of . . . anemia and the compensatory phenomena following splenectomy in the albino rat (*Marmorston-Gottesman and Perla*) ----- 579*

* Abstract of paper presented at the meeting of the American Association of Pathologists and Bacteriologists held at Cleveland, Ohio, April 2 and 3, 1931.

- Blood.** — Certain physico-chemical properties of . . . and exudative cells
(*Mudd and Mudd*) ----- 549*
- Bones.** — Primary liposarcoma of . . . (*Stewart*) ----- 87
- Bronchiectasis.** — The pathology and bacteriology of . . . A study of
eight surgical lobectomies (*Robinson and Greely*) ----- 558*

C

- Carcinoma.** — Grading of . . . of the cervix uteri as checked at autopsy
(*Warren*) ----- 567*
- Carcinoma.** — Metastatic . . . simulating hyperparathyroidism (*Mason
and Warren*) ----- 415
- Carcinomatosis.** — Implantation peritoneal . . . of ovarian origin (*Samp-
son*) ----- 423
- Carrot-feeding.** — Experimental hepatic pigmentation and cirrhosis.
II. The effect of heavy . . . on the rabbit's liver (*Hall and MacKay*) 343
- Cartilage.** — A systematic study of the degeneration of articular . . .
in bovine joints (*Bennett and Bauer*) ----- 399
- Cat.** — Mast myelocyte leukemia in a . . . (*Lillie*) ----- 713
- Cephalin.** — The absence of antigenic activity in the complement fixation
test of the purified lipoids, . . . and lecithin (*Maltaner*) ----- 537*
- Cervices.** — Pathology of one thousand . . . (*Davis*) ----- 537*
- Cervix uteri.** — Grading of carcinoma of the . . . as checked at autopsy
(*Warren*) ----- 567*
- Cholecystitis.** — Chronic typhoid . . . (*Mallory and Lawson*) ----- 71
- Chondrosarcoma.** — . . . with intravascular growth and tumor emboli
to lungs (*Warren*) ----- 161
- Chorio-epithelioma.** — On the production of decidual cells in an ovary
about a primitive . . . of that organ (*Simard*) ----- 566*
- Cinchophen poisoning.** — The specific character of toxic cirrhosis as ob-
served in . . . A review of five fatal cases (*Beaver and Robertson*) --- 237
- Cinchophen poisoning.** — The specific characters of toxic cirrhosis as
observed in . . . A review of five fatal cases (*Beaver and Robertson*) -- 575*
- Cirrhosis.** — A clinical and pathological study of 297 cases of . . . of the
liver (*McCartney*) ----- 572*
- Cirrhosis.** — Experimental hepatic pigmentation and . . . I. Does cop-
per poisoning produce pigmentation and . . . of the liver? (*Hall and
MacKay*) ----- 327
- Cirrhosis.** — Experimental hepatic pigmentation and . . . II. The effect
of heavy carrot-feeding on the rabbit's liver (*Hall and MacKay*) -- 343
- Cirrhosis.** — Experimental pigment . . . of the liver due to copper poison-
ing (*Hall and MacKay*) ----- 572*
- Cirrhosis.** — Infectious . . . (*MacMahon*) ----- 77
- Cirrhosis.** — The different types of . . . of the liver (*Mallory*) ----- 570*
- Cirrhosis.** — The specific character of toxic . . . as observed in cinchophen
poisoning. A review of five fatal cases (*Beaver and Robertson*) ----- 237

Cirrhosis. — The specific characters of toxic . . . as observed in cinchophen poisoning. A review of five fatal cases (<i>Beaver and Robertson</i>)	575*
Complement. — The quantitative determination of the fixation of . . . by immune serum and antigen (<i>Mallaner</i>)	538*
Connective tissue. — Practical suggestions for silver impregnation of . . . (<i>Guyon</i>)	47
Copper. — Experimental . . . poisoning (<i>Mallory and Parker</i>)	351
Copper. — Experimental . . . poisoning (<i>Mallory and Parker</i>)	574*
Copper. — Experimental hepatic pigmentation and cirrhosis. 1. Does . . . poisoning produce pigmentation and cirrhosis of the liver? (<i>Hall and MacKay</i>)	327
Copper. — Experimental pigment cirrhosis of the liver due to . . . poisoning (<i>Hall and MacKay</i>)	572*
Copper. — The microchemical demonstration of . . . in pigment cirrhosis (<i>Mallory and Parker</i>)	365
Cornea. — The cellular reaction to infection with tubercle bacilli. Experiments on the . . . in animals of varying susceptibility (<i>Long, Vorwald and Holley</i>)	555*

D

Decidual cells. — On the production of . . . in an ovary about a primitive chorio-epithelioma of that organ (<i>Simard</i>)	566*
Deficiency disease. — Teeth and epiphyses in . . . (<i>Wolbach</i>)	562*
Dental anlage. — An investigation of spirochetosis of the . . . in congenital syphilis (<i>Hill</i>)	515
Dental anlage. — An investigation of spirochetosis of the . . . in congenital syphilis (<i>Hill</i>)	579*
Diphtheria toxin. — Neutralization or destruction of . . . by tissue (<i>Wadsworth and Hoppe</i>)	545*
Diphtheria toxin. — Studies on the adsorption of . . . onto and elution from magnesium hydroxide (<i>Ecker and Weed</i>)	579*
Dogs. — The pathological changes following experimental exposure of . . . to mycobacterium tuberculosis of avian origin (<i>Feldman</i>)	147
Duodenal. — Inflammatory adenomatoid hyperplasia of the major . . . papilla in man (<i>Dardinski</i>)	519

E

Encephalomyelitis. — Acute . . . of the horse. Epizootic in the San Joaquin Valley, 1930 (<i>Meyer</i>)	579*
Endocarditis. — Early lesions of rheumatic . . . (<i>Leary</i>)	562*
Endocarditis. — Glomerular lesions in . . . (<i>Bell</i>)	564*
Endothelium. — Transformation of sinusoidal . . . into the ordinary capillary type (<i>McJunkin</i>)	9
Epiphyses. — Teeth and . . . in deficiency diseases (<i>Wolbach</i>)	562*

Erythroblastosis. — . . . with jaundice and edema in the newly born (<i>Ferguson</i>) -----	277
Exudative cells. — Certain physico-chemical properties of blood and . . . (<i>Mudd and Mudd</i>) -----	549*

F

Filtrates. — Studies on the properties of bouillon . . . of the meningococcus (<i>Ferry, Norton and Steele</i>) -----	544*
Fixation. — . . . of bacteria and of particulate matter at the site of inflammation (<i>Menkin</i>) -----	550*
Fixation. — The quantitative determination of the . . . of complement by immune serum and antigen (<i>Maltaner</i>) -----	538*
Fowl-pox. — A comparison of the inclusion bodies of . . . and molluscum contagiosum (<i>Goodpasture and Woodruff</i>) -----	I
Fowl-pox virus. — The susceptibility of the chorio-allantoic membrane of chick embryos to infection with the . . . (<i>Woodruff and Goodpasture</i>) -----	209

G

Glomerular lesions. — . . . in endocarditis (<i>Bell</i>) -----	564*
Glomerulonephritis. — Experimental . . . in a monkey (<i>Bell and Clawson</i>) -----	57
Gopher. — Susceptibility of the . . . (<i>citellus tridecemlineatus</i>) to mycobacterium tuberculosis (<i>Feldman</i>) -----	139
Grading. — . . . of carcinoma of the cervix uteri as checked at autopsy (<i>Warren</i>) -----	567*

H

Heart. — A case of hypernephroma with tumor thrombosis of vena cava and . . . (<i>Polayes and Taft</i>) -----	63
Heart. — Congenital rhabdomyoma of the . . . (<i>Farber</i>) -----	105
Heart. — Spontaneous rupture of the . . . (<i>Feemster</i>) -----	223
Heart. — Topographic anatomy and histology of the valves in the human heart (<i>Gross and Kugel</i>) -----	445
Heart disease. — Congenital . . . A persistent ostium atrioventriculare commune with septal defects in a Mongolian idiot (<i>Robson</i>) -----	229
Heart valve. — Primary neoplasm of . . . (<i>Branch</i>) -----	157
Hepatitis. — Streptococcus . . . (<i>MacMahon and Mallory</i>) -----	299
Hepatitis. — Streptococcus . . . (<i>MacMahon and Mallory</i>) -----	576*
Hinton. — Comparison of Kahn, Sigma and . . . tests (<i>Belding and Arrowood</i>) -----	537*
Histology. — Topographic anatomy and . . . of the valves in the human heart (<i>Gross and Kugel</i>) -----	445
Hodgkin's disease. — An interpretation of the nature of . . . (<i>Medlar</i>) --	499
Hodgkin's disease. — An interpretation of the nature of . . . (<i>Medlar</i>) --	565*

INDEX OF SUBJECTS

747

Hodgkin's disease. — The significance of lesions resembling . . . in tuberculosis (<i>Medlar and Sasano</i>)	491
Horse. — Acute encephalomyelitis of the . . . Epizootic in the San Joaquin Valley, 1930 (<i>Meyer</i>)	579*
Hypernephroma. — A case of . . . with tumor thrombosis of vena cava and heart (<i>Polayes and Taft</i>)	63
Hyperparathyroidism. — Metastatic carcinoma simulating . . . (<i>Mason and Warren</i>)	415
Hyperplasia. — Inflammatory adenomatoid . . . of the major duodenal papilla in man (<i>Dardinski</i>)	519
Hypersensitiveness. — Local organ . . . A new method for its production in the rabbit eye (<i>Seegal and Seegal</i>)	538*
Hypersensitiveness. — Local organ . . . The production of active . . . in the rabbit eye by streptococcus scarlatinae and its products (<i>Seegal and Seegal</i>)	540*
Hypoglycemia. — Tumors of the islands of Langerhans and . . . (<i>Smith and Seibel</i>)	723

I

Immunization. — The . . . of monkeys against the virus of poliomyelitis (<i>Brebner</i>)	546*
Implantation. — . . . peritoneal carcinomatosis of ovarian origin (<i>Sampson</i>)	423
Inclusions. — The incidence of intranuclear and cytoplasmic . . . in the salivary glands and other organs of infants (<i>Farber</i>)	557*
Inflammation. — Fixation of bacteria and of particulate matter at the site of . . . (<i>Menkin</i>)	550*
Insulin resistance. — Spontaneous . . . in rabbits. The effect of thyroidectomy on the response to insulin (<i>Zeckwer</i>)	548*
Islands of Langerhans. — The circulatory pattern in the . . . (<i>Beck and Berg</i>)	31
Islands of Langerhans. — Tumors of the . . . and hypoglycemia (<i>Smith and Seibel</i>)	723

J

Joints. — A systematic study of the degeneration of articular cartilage in bovine . . . (<i>Bennett and Bauer</i>)	399
---	-----

K

Kahn. — Comparison of . . . , Sigma and Hinton tests (<i>Belding and Arrowood</i>)	537*
Knee region. — Benign polymorphocellular tumors of the . . . (<i>Hunter</i>)	13

L

Lecithin. — The absence of antigenic activity in the complement fixation test of the purified lipoids, cephalin and . . . (<i>Malkaner</i>)	537*
Leukemia. — Mast myelocyte . . . in a cat (<i>Lillie</i>)	713

Leukemia. — Some immunological aspects of . . . (<i>Hueper and Russell</i>) -	546*
Lipoids. — The absence of antigenic activity in the complement fixation test of the purified . . . , cephalin and lecithin (<i>Maltaner</i>) -	537*
Liposarcoma. — Primary . . . of bone (<i>Stewart</i>) -	87
Liver. — A clinical and pathological study of 297 cases of cirrhosis of the liver (<i>McCartney</i>) -	572*
Liver. — Changes induced in the . . . by mechanical obstruction of the hepatic veins (<i>Simonds and Callaway</i>) -	578*
Liver. — Experimental hepatic pigmentation and cirrhosis I. Does copper poisoning produce pigmentation and cirrhosis of the . . . (<i>Hall and MacKay</i>) -	327
Liver. — Experimental hepatic pigmentation and cirrhosis. II. The effect of heavy carrot-feeding on the rabbit's . . . (<i>Hall and MacKay</i>) -	343
Liver. — Experimental pigment cirrhosis of the . . . due to copper poisoning (<i>Hall and MacKay</i>) -	572*
Liver. — Granulomatous abscess of the . . . of pyogenic origin (<i>Beaver</i>) -	259
Liver. — Granulomatous abscess of the . . . of pyogenic origin (<i>Beaver</i>) -	578*
Liver. — The different types of cirrhosis of the . . . (<i>Mallory</i>) -	570*
Liver function. — Studies of abnormal . . . (<i>Whipple</i>) -	571*
Lungs. — Chondrosarcoma with intravascular growth and tumor emboli to . . . (<i>Warren</i>) -	101
Lymphoblastoma. — Follicular . . . (giant follicular hyperplasia of the lymph nodes and spleen) (<i>Baehr, Klempner and Rosenthal</i>) -	558*

M

Mast myelocyte. — . . . leukemia in a cat (<i>Lillie</i>) -	713
Melanoma. — Two cases of . . . of the meninges with autopsy (<i>Foot and Zeek</i>) -	605
Melanosis. — . . . mucosae appendicis vermiformis (<i>Lillie</i>) -	701
Melanotic tumors. — On the silver impregnation of . . . (<i>Foot</i>) -	619
Meninges. — Two cases of melanoma of the . . . with autopsy (<i>Foot and Zeek</i>) -	605
Meningococcus. — Studies on the properties of bouillon filtrates of the . . . (<i>Ferry, Norton and Steele</i>) -	544*
Molluscum contagiosum. — A comparison of the inclusion bodies of fowl-pox and . . . (<i>Goodpasture and Woodruff</i>) -	I
Monkey. — Experimental glomerulonephritis in a . . . (<i>Bell and Clawson</i>) -	57
Myeloma. — A case of . . . with unusual amyloid deposition (<i>Paige</i>) -	691
Myocardium. — . . . in syphilis (<i>Saphir</i>) -	579*

N

Neoplasm. — Primary . . . of heart valve (<i>Branch</i>) -	157
Nephrectomy. — Urine flow and open glomeruli after unilateral . . . (<i>Moore and Summerville</i>) -	579*

O

Obstruction. — Changes induced in the liver by mechanical . . . of the hepatic veins (<i>Simonds and Callaway</i>)	578*
Ovarian origin. — Implantation peritoneal carcinomatosis of . . . (<i>Sampson</i>)	423
Ovary. — On the production of decidual cells in an . . . about a primitive chorio-epithelioma of that organ (<i>Simard</i>)	566*

P

Pancreatitis. — Hemorrhagic . . . Report of two cases in which gallstones could not be considered essential etiological factors (<i>Dardinski</i>)	169
Papilla. — Inflammatory adenomatoid hyperplasia of the major duodenal . . . in man (<i>Dardinski</i>)	519
Peritonitis. — On so-called hematogenous . . . (<i>Saphir and Wile</i>)	560*
Pigeons. — Spontaneous and experimental infection of . . . with <i>B. aertrycke</i> (<i>Cash and Doan</i>)	373
Pigmentation. — Experimental hepatic . . . and cirrhosis. I. Does copper poisoning produce . . . and cirrhosis of the liver? (<i>Hall and MacKay</i>)	327
Pigmentation. — Experimental hepatic . . . and cirrhosis II. The effect of heavy carrot-feeding on the rabbit's liver (<i>Hall and MacKay</i>)	343
Pigment cirrhosis. — The microchemical demonstration of copper in . . . (<i>Mallory and Parker</i>)	365
Poisoning. — Experimental copper . . . (<i>Mallory and Parker</i>)	351
Poisoning. — Experimental copper . . . (<i>Mallory and Parker</i>)	574*
Poisoning. — Studies in experimental cinchophen . . . (<i>Churchill and van Wagoner</i>)	574*
Poisoning. — The specific character of toxic cirrhosis as observed in cinchophen . . . A review of five fatal cases (<i>Beaver and Robertson</i>)	237
Poisoning. — The specific characters of toxic cirrhosis as observed in cinchophen . . . A review of five fatal cases (<i>Beaver and Robertson</i>)	575*
Poliomyelitis. — Further observations on a skin test for susceptibility to . . . (<i>Rosenow</i>)	546*
Poliomyelitis. — Studies on an institutional outbreak of . . . apparently due to milk (<i>Rosenow</i>)	547*
Poliomyelitis. — The immunization of monkeys against the virus of . . . (<i>Brebner</i>)	546*

R

Rabbits. — Avian tuberculosis in normal and vaccinated . . . (<i>Medlar</i>)	475
Rhabdomyoma. — Congenital . . . of the heart (<i>Farber</i>)	105
Rheumatic. — Early lesions of . . . endocarditis (<i>Leary</i>)	562*
Rheumatic fever. — Experiments relative to a possible basis for vaccine therapy in . . . (<i>Clawson</i>)	547*

Rickettsia. — Pathological study of a case of endemic typhus in Virginia with demonstration of . . . (<i>Pinkerton and Maxcy</i>)	95
Rous. — The effect of testicle extract on the . . . sarcoma (<i>Hoffman, Parker and Walker</i>)	523
Rupture. — Spontaneous . . . of the heart (<i>Feemster</i>)	223

S

Sarcoma. — The effect of testicle extract on the Rous . . . (<i>Hoffman, Parker and Walker</i>)	523
Sarcoma. — X-ray . . . of man with report of a case (<i>Mulsow</i>)	579*
Serum. — The quantitative determination of the fixation of complement by immune . . . and antigen (<i>Maltaner</i>)	538*
Sigma. — Comparison of Kahn, . . . and Hinton tests (<i>Belding and Arrowood</i>)	537*
Silver ammonium carbonate. — Supravital staining with . . . (<i>McJunkin</i>)	131
Silver impregnation. — On the . . . of melanotic tumors (<i>Foot</i>)	619
Silver impregnation. — Practical suggestions for . . . of connective tissue (<i>Guyon</i>)	47
Skin-reactivity. — Phenomenon of local . . . to bacterial filtrates: passive immunity to reacting factors (<i>Shwartzman</i>)	542*
Skin test. — Further observations on a . . . for susceptibility to poliomyelitis (<i>Rosenow</i>)	546*
Spine. — Assimilation of atlas and compression of medulla; with contribution to the clinical significance and pathology of torticollis and localized chronic arthritis deformans of the . . . (<i>Bezi</i>)	579*
Spirochetosis. — An investigation of . . . of the dental anlage in congenital syphilis (<i>Hill</i>)	515
Spirochetosis. — An investigation of . . . of the dental anlage in congenital syphilis (<i>Hill</i>)	579*
Staphylococcus albus. — Bacterial pleomorphism: The derivation of non-virulent . . . from virulent staphylococcus aureus (<i>Pinner and Voldrich</i>)	547*
Staphylococcus aureus. — Bacterial pleomorphism: The derivation of non-virulent staphylococcus albus from virulent . . . (<i>Pinner and Voldrich</i>)	547*
Streptococcus. — . . . hepatitis (<i>MacMahon and Mallory</i>)	299
Streptococcus. — . . . hepatitis (<i>MacMahon and Mallory</i>)	576*
Streptococcus scarlatinae. — Local organ hypersensitiveness. The production of active hypersensitiveness in the rabbit eye by . . . and its products (<i>Seegal and Seegal</i>)	540*
Streptococcus septicemia. — Blood chemical changes in experimental . . . (<i>Linton</i>)	548*
Suprarenal cortical extract. — The effect of . . . on resistance (<i>Perla and Marmorston-Gottesman</i>)	547*
Supravital staining. — . . . with silver ammonium carbonate (<i>McJunkin</i>)	131

Supravital technique. — Further studies of intracranial tumors by . . . (<i>Eisenhardt</i>)	569*
Swine. — Intestinal adenoma in . . . (<i>Biester and Schwarte</i>)	175
Syphilis. — An investigation of spirochetosis of the dental anlage in congenital . . . (<i>Hill</i>)	515
Syphilis. — An investigation of spirochetosis of the dental anlage in con- genital . . . (<i>Hill</i>)	579*
Syphilis. — Myocardium in . . . (<i>Saphir</i>)	579*

T

Teeth. — . . . and epiphyses in deficiency diseases (<i>Wolbach</i>)	562*
Testicle extract. — The effect of . . . on the Rous sarcoma (<i>Hoffman, Parker and Walker</i>)	523
Therapeutic sera. — Modification of . . . with a view to avoiding com- plications of allergic nature (<i>Bronfenbrenner, Heller and Eagle</i>) ---	543*
Thyroid gland. — Metastatic tumours in the . . . (<i>Willis</i>)	187
Thyroidectomy. — Spontaneous insulin resistance in rabbits: The effect of . . . on the response to insulin (<i>Zeckwer</i>)	548*
Thyroid gland. — Interacinar epithelium of the . . . (<i>Moritz</i>)	37
Thyroid gland. — Papilliferous tumors of the . . . and of aberrant thyroid tissue (<i>Moritz and Bayless</i>)	675
Torticollis. — Assimilation of atlas and compression of medulla: with contribution to the clinical significance and pathology of . . . and localized chronic arthritis deformans of the spine (<i>Bezi</i>) ---	579*
Trachoma. — The effect of secondary infections on experimental . . . (<i>Olitsky, Knutti and Tyler</i>)	556*
Tubercle bacilli. — The cellular reaction to infection with . . . Experi- ments on the cornea in animals of varying susceptibility (<i>Long, Vorwald and Holley</i>)	555*
Tuberculosis. — A comparative study of the histopathology of experi- mental . . . in different species (<i>Feldman</i>)	553*
Tuberculosis. — Avian . . . in normal and vaccinated rabbits (<i>Medlar</i>)	475
Tuberculosis. — Susceptibility of the gopher (<i>citellus tridecemlineatus</i>) to mycobacterium . . . (<i>Feldman</i>)	139
Tuberculosis. — The pathological changes following experimental expo- sure of dogs to mycobacterium . . . of avian origin (<i>Feldman</i>) ---	147
Tuberculosis. — The significance of lesions resembling Hodgkin's disease in . . . (<i>Medlar and Sasano</i>)	491
Tularemic encephalitis. — . . . : Pathology of acute tularemia with en- cephalitis and coexisting active tuberculosis (<i>Hartman</i>)	551*
Tularemic pneumonia. — . . . (<i>Permar and MacLachlan</i>)	551*
Tumors. — Benign polymorphocellular . . . of the knee region (<i>Hunter</i>)	13
Tumors. — Further studies of intracranial . . . by supravital technique (<i>Eisenhardt</i>)	569*

- Tumors.** — Massive unattached retroperitoneal . . . : An explanation of unattached retroperitoneal . . . based on remnants of the embryonic urogenital apparatus (*Hansmann and Budd*) ----- 631
- Tumors.** — Papilliferous . . . of the thyroid gland and of aberrant thyroid tissue (*Moritz and Bayless*) ----- 675
- Tumors.** — . . . of the islands of Langerhans and hypoglycemia (*Smith and Seibel*) ----- 723
- Tumors.** — Unattached . . . from the embryonic urogenital apparatus (*Hansmann and Budd*) ----- 566*
- Tumours.** — Metastatic . . . in the thyreoid gland (*Willis*) ----- 187
- Typhoid.** — Chronic . . . cholecystitis (*Mallory and Lawson*) ----- 71
- Typhus.** — Pathological study of a case of endemic . . . in Virginia with demonstration of rickettsia (*Pinkerton and Maxcy*) - - - - - 95

U

- Urine flow.** — . . . and open glomeruli after unilateral nephrectomy (*Moore and Summerville*) ----- 579
- Urogenital apparatus.** — Massive unattached retroperitoneal tumors. An explanation of unattached retroperitoneal tumors based on remnants of the embryonic . . . (*Hansmann and Budd*) ----- 631
- Urogenital apparatus.** — Unattached tumors from the embryonal . . . (*Hansmann and Budd*) ----- 566*

V

- Vaccine therapy.** — Experiments relative to a possible basis for . . . in rheumatic fever (*Clawson*) ----- 547*
- Vaccine virus.** — A study of . . . pneumonia in rabbits (*Muckenfuss, McCordock and Harter*) ----- 552*
- Valves.** — Topographic anatomy and histology of the . . . in the human heart (*Gross and Kugel*) ----- 445
- Vena cava.** — A case of hypernephroma with tumor thrombosis of . . . and heart (*Polayes and Taft*) ----- 63

X

- X-ray.** — . . . sarcoma of man with report of a case (*Mulsow*) ----- 579*
